## HON. CHAS. STEWART TO SPEAK IN STONY SATURDAY, MAY 11

A Good Turnout Expected when the Former Minister of the Interior Addresses His Constituents.

In the course of his flying visit to the West during the Easter recess of the House of Commons, Hon. Charles Stewart, Liberal candidate in the new Federal Riding of Jasper-Edson, will speak at the following places on the dates given:

May 9—Jasper  
May 10—Edson  
May 11—Stony Plain  
May 12—Legal  
May 13—Barrehead  
May 14—Onoway

It is expected Mr. Stewart will be accompanied to these meetings by several leading Liberals, and to some at least by J. A. McKinnon, Liberal nominee in West Edmonton, and Lt.-Col. George B. McLeod, Liberal nominee in West Edmonton.

Mr. Stewart will speak at Wainwright on his way East, and expects to reach Ottawa in time for the re-opening of the House of Commons on Monday, May 20.

The meeting on Saturday is being held under the auspices of the Liberal Association of the Edson-Jasper Riding.

### Stony Plain and District.

Mrs. Florence Goebel and Mrs. Wm. Fuhr returned on Friday from their Vancouver trip.

Mr. Wm. Comisarow spent the week-end and holiday at his home here.

Rev. B. F. Behrends, pastor of the Lutheran Church at Josephburg, was in Stony on Sunday.

Mr. Clarence Street, a former resident, is back in Stony, selling automobiles.

The King's Jubilee day, on the 6th, was observed very quietly in Stony. There being no celebration here, a number of the sports motored up to Onoway, where the Silver Jubilee was duly celebrated; followed by a dance in the evening, at which the Stony Plain orchestra played.

### Highway Traffic Ban Extended

Provisions of an order issued by the provincial Dept. of Works extend the time of restriction on all bus and truck traffic from May 4 to Wednesday morning, May 15th, on, among other highways, the Edmonton-Wildwood highway.

### Someone Aleep at the Switch

That was an awkward moment, on Monday morning, when the King's Jubilee across-Canada broadcast was being made, beginning at Halifax, where the band played "O, Canada," and continuing thru every capital of the provinces across the continent. When the time came for the band at Edmonton (the Capital of Alberta) to blow itself, there was no response; so the broadcast switched, and the band at the British Columbia capital was heard.

## HARDWICK'S

THE HOUSE of QUALITY and SERVICE.

## In the Good Old Springtime You Need Something Different

### Confidence

Confidence is the bedrock on which human society rests. The entire world in all its varied activities is motivated by confidence. Destroy confidence and our civilization would disappear. It has been long accepted as a truism that there is in life but one absolute certainty, which is death. And, says one writer, all other activities, to a large extent, are dependent upon confidence for their being.

There is no word in our language that is more powerful in its full meaning, one that carries with it so practical an agency to accomplish our desires or to transmute our hopes into realities than that of confidence. It has been said that it is a plant of slow growth. Yet it is one that can be nurtured by individuals and groups of individuals and brought to full fruition with little effort. It is akin to faith in that faith in a particular proposition can be made an actuality by confidence. It is in a measure a question of application. Sometimes it is an outgrowth of reason, sometimes instinct, but however acquired it is, as stated in our opening sentence, the bedrock on which human society rests.

A home is established on confidence, the confidence a man and a woman have in each other which begets respect and love; confidence which children have in their parents; confidence which parents seek of their children and in turn which they repose in their offspring. Lacking confidence, a home would be impossible.

A successful business can only be built up and maintained where there is confidence, the confidence which one partner reposes in another, which the shareholders have in their managing executive, which an employer extends to his employees, and which employees have for their employers, and finally which the business man has in his customers and his customers possess for him. Lacking such confidence, a business will inevitably end in bankruptcy.

So, too, is the life of the community founded in confidence. First there must be confidence that there is a future for the community or there will be no community because people would not remain to constitute one; people who constitute the community group must have confidence in the goodwill, ability and enterprise of their associates, otherwise confidence in the community itself would be lacking. And what is true of the community is true of the nation.

It is not only essential that the citizens of a community or nation possess confidence in themselves and in each other, but it is vitally necessary that other communities and nations repose confidence in them if they are to achieve the greatest success and rise to a proud place in the world. When confidence between peoples and nations is lost, the world is headed for trouble.

Furthermore, when a community or nation assumes an attitude or adopts a course of action which results in a withdrawal of confidence from it, such community or nation is bound to be the sufferer. Once a man breaks faith with another he destroys what, after all, is his greatest asset, the confidence which his fellow men repose in him. He may have taken a long time to win the confidence of others, but by one act it can be quickly destroyed and forever lost. And if a community, built up as communities are by the confidence that people have given to them, proceeds to evade its responsibilities and repudiate its obligations, it thereby destroys its most valuable community asset.

A dollar bill is only valuable because of the confidence which the public has in the Government or bank issuing the bill; lacking such confidence the piece of paper would be utterly valueless. If a pupil lacks confidence in his teacher, the teaching will be largely in vain. The sick patient's confidence in the doctor is half the battle to a successful recovery. Lacking confidence in the safety of the track, of bridges to be crossed, of the dispatcher at the telegraph key, of the trained engineer in the locomotive cab, few people could be induced to undertake a railway journey.

Let the reader consider what his or her own position in life would be if they lost all confidence in their fellow citizens, in the institutions of their nation, in everything animate and inanimate which surrounds them. They would become fit inmates for a madhouse. Without confidence mankind simply could not continue to exist.

Notwithstanding this great truth, the fact remains that throughout the world to-day organized efforts are being put forth to destroy confidence in practically all things. Men and women are asked to place no confidence in the existence of God, to abandon their formerly held religious beliefs, to reject forms of government which it has taken centuries to develop, to surrender confidence in themselves, their convictions, abilities, initiative and energies, in a word, their individual liberties, and because they no longer have confidence in themselves, to become mere cogs in an economic and political machine operated by forces over which they will have surrendered all control.

Loss confidence in yourself and you destroy yourself, because with loss of confidence there is loss of self-respect, loss of self-control, loss of ambition, loss of initiative and the power to do.

### Figures Are Interesting

Statistics Show Important Place Occupied By Canada's Railways

The place which Canada's railways occupy in the Dominion's affairs is strikingly shown in some statistics recently released. Last year 56,838,000 tons of freight were transported by Canadian railways and 17,952,000 passengers travelled on their trains. The total payroll of Canada's railways for the year amounted to \$141,078,000 paid to an average of 119,000 employees. The railways are one of the largest consumers of Canada's coal output. Some figures in this respect covering Canadian National lines show that out of every dollar of the \$121,388,972.56 spent last year in operating the railways, approximately 10 cents went for fuel. The fuel bill for locomotives amounted to \$14,705,092.33 for the year; the water bill amounted to \$893,700.04. Approximately 60 cents out of every dollar of expenses went for labor. Information as to commodities handled over Canadian National lines throughout the year gives a side-light on the extent to which Canada's mining industry has grown. Products of the mines constituted the largest portion of the total revenue amounting to \$27.7 per cent. Agricultural products account for 23.1 per cent, forest products 12.2 per cent, animal products 2.7 per cent, miscellaneous 29.8 per cent.

### In Bed With Neuritis Every Winter

Until Kruschen Brought Relief

"For three years," writes a woman, "I have been sick in bed about three months every winter with neuritis in my hips and legs. Last winter I started taking Kruschen Salts, and got relief from the first dose. This winter I have not been in bed at all."—(Mrs.) D. M. Neuritis is a result of impurities in the blood. And it is impure blood, circulating all over the system and setting up inflammation in the tissues, that causes those excruciating pains. Kruschen Salts can be safely trusted to set the matter right. Because Kruschen contains just what Nature needs to permeate your internal organs back into a healthy, normal condition.

### Necessity For Canada

Control Of Wheat Supply Needed States British Economist

Regulation and control of wheat supply is a necessity for Canada, and other dominions exporting wheat to Great Britain as British population is no longer increasing and her wheat demand is stationary, Sir Josiah Stamp, noted British economist, stated in Montreal.

Chairman of the London, Midland and Scottish Railway and a director of the Bank of England, Sir Josiah was in Montreal while on route with Lady Stamp from Quebec to New York on a combined business and pleasure trip to the United States.

Sir Josiah, who headed a royal commission on the Canadian wheat situation a few years ago, hoped any increased business to the Canadian wheat farmer as a result of the United States' dust storms would not start him increasing acreage and crop production under the impression the benefits would be permanent.

### Rapid Transport

London Aviator Planning Week-End Trip To Canada

Flying what is designed to be the speediest long-range plane in the world, Capt. T. Campbell Black is planning a "weekend" trip to Canada this summer, it was learned in London.

The flight will be the second of four proposed "weekend" flights, the others being to Capetown, the Orient, and an unknown destination respectively.

Chlorophyll, the green coloring matter in plant leaves, apparently is the only means by which solar energy is made available to the plant.

Mount Ararat, on which Noah landed the Ark after the great flood, is now more than three miles above sea level.

### The Mauretania Retires

Launched in 1906, This Vessel Covered 1,500,000 Miles During Its Years of Service

The Cunard liner Mauretania, which has just been retired, was planned to be the fastest ship in the world, and not only won this distinction, but kept it for 22 years.

The Mauretania was built at the shipyard of Swan, Hunter and Wigman Richardson, at Wallsend, near Newcastle-on-Tyne, England, and was the first ship to have quadruple propellers.

The hull was launched on September 26, 1906, the Dowager Duchess of Roxburgh performing the launching ceremony. The ship's final trials took place on November 3, 1907, and she started on her first voyage to New York on November 16, 1907, making the crossing in five days, five hours and 10 minutes, and thus breaking all existing records at that time.

As late as July 1933, the Mauretania, on her way from Havana to New York, covered 112 miles at an average of 32 knots, or 36.84 land miles per hour. This record was made between Caryfort Reef Light-house and Jupiter Inlet Light-house. The Mauretania had steamed fully 1,500,000 miles, including more than 300 voyages across the Atlantic, scores of cruises, many of them to the West Indies and South America, and scouting and troop-carrying during the war. Her mileage would reach around the world sixty times. During her career she carried approximately 250,000 passengers. During the war she transported upward of 70,000 soldiers.

The Mauretania was named for a former Roman province in Northern Africa.

The February movement of bacon from Canada to Great Britain, viz. 14,765,200 pounds, was almost double the volume for February, 1934. The total value of bacon exported during January and February, 1935 was 28,370,000 pounds, an increase of 8,629,000 pounds over the shipments in January and February, 1934.

Aberdeen, Scotland, has just installed its first automatic telephone.

### Took Part In Convention

Blind, Crippled Child Astonishes Delegates With Her Skill

Kindness which all good school teachers feel towards children came readily for Lucille Lemp, a little blind and crippled girl from Tavistock, Ontario, who took an important part in the public school department's session of the Ontario Education Association's convention held recently in Toronto.

Lucille was brought by her parents, Mr. and Mrs. John K. Lemp, especially for the occasion. In the filmy pink frock she evoked the kindest of attention as she was carried onto the stage by her proud father; but when she began to give her number, admiration and sympathy went through in the hearts and minds of delegates who proudly saw in the child's artistic and skillful demonstration an example of what a home instruction unit under the auxiliary classes department of the Ontario Department of Education had been doing for physically handicapped children.

Lucille played her harp for an audience which applauded her when she was through. With excellent expression in her pleasant voice she recited a poem which she had written. While the delegates, with rapt attention, watched her cheery, earnest face, she wrote a business letter on a typewriter with a Braille keyboard. Using a relief map of the British Isles she gave her audience a lesson in geography.

### Find Petrified Forest

Discovery of a petrified forest dating from a prehistoric age on the slopes of the Adshar mountains in Tiflis, Russia, has been announced. Professor Vinogradov of the Tiflis forestry institute, who made the discovery, said he found trunks of many different species of trees, some of gigantic proportions.

### An Old Idea

Aristotle once counted the teeth of his housekeeper. He found that a male servant had four more less teeth in the mouth of the woman, and for hundreds of years it was taken for granted that men had four more teeth than women.

## a Real Swell

Yes, proud, envied and dubbed a spendthrift just because he sets sail—this is money in his country! Interesting isn't it? One of many weird customs and superstitions told in picture and story in our new book for children: "Sails all over the World." Chockful of interest and entertainment for all. We want you to have it free with our compliments! Send coupon now.

## Extensive Plan Of Beautification On Civic Lines Reflects Thrift And Enterprise Of Communities

Canada has been richly endowed with great natural beauty and, except where man in cities, towns and villages has turned that loveliness into a semblance of garbage dumps, the land is a vista of endless charm. Just as a man is oft-times judged by his clothes, so is a community appraised by its environment and that environment is at once the responsibility of every member of the community, individually and collectively.

The home after all is the starting point for the most effective re-beautification of the spots deplored of their natural grace, and, where each home is beautified, the fulfilment of a comprehensive scheme of beautification on civic or community lines is made a comparatively easy matter.

This has been amply proved by the success of the More Beautiful Canada campaign sponsored by the Canadian Horticultural Council a few years ago. The idea of beautifying the home surroundings had, in many places, only to be suggested to, be acted upon, and now Canada possesses many more beautiful towns, villages and homes, some lovely but all the more lovely in their lowliness.

The use of flowers and plants on the porch and walk to a home in the gardens, and in adjacent spaces is not a matter of mere show. It goes deeper than that. In reality it strikes at the roots of civilization. Beauty represents the supremacy of the higher over the lower, of form over matter. So much so that if the world were one beautiful garden and every inhabitant interested in it, there would be no more war. Every human being is influenced to a greater extent by his surroundings than is generally realized. Where there is harmony and the harmony of flowers symbolizes the blending of the higher impulses—there can be no discord.

The story is the oldest one known. Adam was appointed to dress the garden of Eden and to keep it (Gen. 2:15). He did not do so and was sent out of the garden to till the ground. (Gen. 3:23). Children reared to love flowers have their hearts filled with love for beauty and thus have less room in their hearts and minds for the things that hurt and destroy.

Still another point of view. The progressiveness and thrift of a community or municipality are often reflected in its appearance, and, while the Dominion is stressing the importance of the influx of tourists, the best advertising that any community can do is to present a pleasing appearance. In the matter of what are the most suitable flowers and plants for the district, information will gladly be given by the nearest agricultural college, or the Experimental Farm of the Dominion or Provincial Department of Agriculture.

### Encourage Young Artist

Faints And Brushes To Be Sent To Apprentice At Northern H.K. Post

A set of artist's paints and brushes will be sent to Stanley C. Knapp, 20-year-old English apprentice in charge of the Hudson's Bay Company post at Clyde River, by trustees of the national gallery of Canada in recognition of his natural talent and inventiveness. Clyde River is 500 miles north of Frobisher Bay, southern Baffin Land, N.W.T.

Last year Knapp presented H. S. Southern, chairman of the board of trustees of the gallery, with an oil painting of the company post at Frobisher Bay, executed by him with brushes made from hair out of his own head, and painted on cardboard with common house paint. The gift was brought down by Major D. L. McDonald, commander of the Canadian government Arctic patrol.

### Federal Appointment

Harvey Dennis Spurling, Portage la Prairie, has been appointed official receiver under the Farmers Creditors' Arrangements Act, for the central judicial district of Manitoba. Finance Minister E. N. Rhodes announced.

### For Grasshopper Control

Experiment Made In Distributing Bait By Means Of Aeroplane

Aerial distribution of grasshopper poison bait was demonstrated at Lethbridge recently before a dozen entomologists of the Dominion and northwestern United States.

During a conference of scientists seeking best ways and means of controlling the "hopper" infestation, a biplane with Pilot E. Hoffs at the controls, equipped with a "spreader" invented by Terrance Ingolsby of Lethbridge, and several hundred pounds of bait aboard gave a demonstration of rapid spreading of bait which greatly impressed the entomologists.

By means of the overhead spreader it is possible to spread the bait evenly over large areas very quickly at the rate of about 10 pounds to the acre, which is not possible by the hand method now used.

### Anxious To Have Vote

Uneducated Women In Ceylon Learning To Read And Write

Mothers and grandmothers in Ceylon are going to the village schools, struggling to learn to read and write so that they may exercise the right to vote, members of a Montreal women's club were told by R. C. Bingham.

Five years ago, he said, when Ceylon attained self-government, the women began to take great interest in the affairs of the country. They have the franchise but must be able to read and write their own language. To-day 600,000 are qualified to vote.

### FASHION FANCIES

### QUICKLY FASHIONED

Ellen Worth offers pattern of this adorable model, distinguished by its perfect tailored simplicity. Style No. 307 is designed for sizes 14 to 18 years, 36 to 40-inch bust. Size 16 requires 2 1/2 yards of 36 inch material with 1/4 yards of 35 inch contrasting.

Patterns 20c each. Address mail orders to: Pattern Department, Winnipeg Newspaper Union, 178 McDermott Ave. E., Winnipeg.

The Spring Fashion Magazine is better than ever. Entirely illustrated in color you will find it a very interesting fashion edition. There are clothes for cruising and clothes to brighten the lives of stay-at-home. Many delightful little models for the smaller members of the family. Of course, patterns are obtainable for the design illustrated. Send for your copy to-day, the price is 20 cents.

### Accumulate Estate

Dionne Quintuplets Prosper Financially During Brief Career

An estate valued at \$151,187.29 has been accumulated for the Dionne quintuplets in the period July 29, 1934, to March 31, 1935. This figure was revealed in the surrogate court of the district of Niagara by H. R. Vallis, solicitor for the former guardians of the five little sisters.

Tabulated the estate consists of contracts valued at \$114,700; cash in bank, \$15,738; Dafoe hospital, \$9,132; province of Ontario bond, \$10,000; gifts, \$1,586.

Gifts varying from five extinguishers to trying pans, were sent to the famous babies during the period in which the now retired guardians held sway. In addition to this the hospital was built and equipped by moneys and donations obtained through the efforts of the guardians.

Contracts which are still due will bring in \$114,750. They include Carnation Company, Ltd., Toronto, \$2,000; Pathe News Incorporated, New York, \$90,000; Gordon V. Thompson Limited, Toronto, \$500; Merrill Publishing Company, Chicago, \$100; N.E.A. Service, Inc., \$3,000; Lehn and Pink Limited, \$1,000; George S. Dingle Limited, Toronto, \$15,000; Alexander Doll Company, New York, \$2,500.

Cash receipts in the period of July 26, 1934, to March 31, 1935, totalled \$20,690. Of this amount, The Toronto Daily Star paid \$1,500 (on a non-profit basis) for still picture rights for the eight-month period. For the privilege of taking moving pictures, Pathe News Incorporated paid \$7,974.

Cash disbursements aggregated \$14,892. These moneys were paid out for medical fees, legal fees, light and power, coal, food supplies, repairs, drilling a well, petty cash, etc. For his services covering the period from the babies' birth until the end of April, Dr. A. R. Dafoe was paid \$2,300.

### Lumber Mills Busy

As a result of a brisk demand for lumber, planing mills in White Court, Alta., did not miss a day during the past winter, running on full time schedule—the first time since 1929. A large amount of lumber is being shipped from there daily.

## Develop Intricate Machine That Is Claimed To Be Able To Solve Numerous Difficult Problems

### Dundonald Was Great Soldier

Had Pledge To Re-Organize Canada's Militia 30 Years Ago

The Earl of Dundonald, who stirred the whole Canadian nation three decades ago by his energetic plans to reorganize the Canadian militia, died at the age of 92, after a brief illness.

A great soldier, who saw service in Egypt and South Africa before becoming general officer commanding the Canadian Militia in 1902, and years later proved himself a valuable assistant in conduct of Great War operations, Lord Dundonald came of a distinguished Scottish fighting family.

He will be remembered chiefly as the man who led the final advance into Ladysmith. He also rode across the desert with dispatches telling of the death of Gordon of Khartoum. In Canada he will long be known as the military man whose conflicts with politicians stirred the Ottawa, and London Parliaments.

Dundonald came to Canada in 1902 to reorganize the Canadian Militia.

After a stormy time and his departure in 1904 when he was greeted enthusiastically by throngs of people in cities en route to Quebec, he wrote: "Persons living in England in the days of the Canadian Militia chief would have been astonished to hear of such a thing as political interference in a military force, but in Canada in 1904 this interference struck at the roots of all efficiency."

### The Yukon-Alaska Boundary

As an aid in the effective enforcement of customs, immigration, and other regulations, the Dominion government has reserved from sale a strip of land 60 feet wide along the Canadian side of the Yukon-Alaska section of the International Boundary. On the Alaska side of the boundary, the United States government has reserved a strip of the same width through its public lands. The Yukon-Alaska boundary is 749 miles long.

## The SNAPSHOT GUILD

### SUGGESTIONS FOR SPRING PICTURES

### "Don't forget the youngsters when you are taking snapshots"

Here's a chance to again get "environment" in your pictures. The young lady pictured above is in an ideal setting to "show off" her suit (and good looks) and at the same time the result is a most attractive snapshot—typical of springtime.

The suit, the girl, or the picture would not be half as attention-compelling if the picture had been taken with the garage door, the back trunk of a tree or some other unattractive object as a background.

If your background is attractive and will add to the appearance of your picture use a small aperture or diaphragm opening. This will not only increase your depth of focus but bring out sharper details. If you stop down to F11, or F16 you will, of course, have to adjust your shutter speed accordingly, depending on the amount of light you have to work by. Don't try to take your pictures at less than 1/250 of a second unless you can place the camera on

something solid for otherwise, unless you know from experience that you can hold your camera steady through 1/125, 1/160 or 1/180 of a second, your picture will be blurred.

Remember, too, that the grown-ups are not the only ones who have new spring clothes. How about the youngsters? Little Jane (above) is surely getting a great thrill out of the new dress.

The season offers countless opportunities for interesting, story-telling snapshots. There is the plant you gave mother, or the beautiful white Easter lilies or the baby chicks received by little Jane from her grandmother, and innumerable other subjects. All you need do is give a little thought to the picture possibilities and at the end of the day you will have a collection of snapshots that you, your friends and family will be proud of and enjoy for years to come.

JOHN VAN GUILDER

With 75,000 parts and \$50,000, the masterpiece of the engineering staff at the University of Pennsylvania has put together a "mechanical brain," an intricate mass of metal that knows all the answers.

The potentialities of the bewildering mass of whirling wheels, shafts, gears, mirrors, discs, ball bearings, et al, is upheld as limitless by its constructors, associates of the Moore School of Electrical Engineering of the U. of P.

Primarily as an instrument of peace, the "mechanical brain" becomes a death-dealing weapon in wartime, when it can be utilized to compute distances between firing points and targets, the most important detail of every gunner's task.

No longer will the captain on the bridge of a battleship have to be concerned with the speed of the ship, the drift, the velocity of the wind, the rotation of the earth, the strength of the charge, the shape of the shell, the humidity, the temperature of the air—and all else that may now be considered before the firing of a thunderous salvo.

All the above calculations will be done—and more accurately—by the mechanism of the new machine.

Prof. Charles DeV. Fawcett, of the Moore school, explained that if a battleship's broadside now strikes its target twice, or even ten times, with the assistance of the "mechanical brain" it will hit the target at least five times, and very likely more often.

Both the army and navy have kept in close contact with the construction of the machine, built with CWA funds. It is the largest instrument of its kind in the world to-day.

"Although I hesitate to forecast the future," Fawcett said, "I am convinced, this machine has extraordinary possibilities for good. It will be of use in the commonest ways."

By solving the mathematical problems that are the basis of so much scientific development, it will be helpful among other things, in radio, television, hydraulics, aerodynamics and the generation of steam. It will be immensely valuable in the automotive field."

As an example, the professor put the three ton giant through a few paces. He geared it to solve a problem known as Vander Pol's equation, or use in radio engineering.

This equation, Fawcett pointed out, can be solved only with the greatest difficulty by mathematicians, with a large margin for error. To the "mechanical brain" it was child's play. In five minutes the machine, using only a small part of its involved workings had the answer—and with no mistakes.

The machine is approximately 28 feet long, six feet wide and three and one-half feet high. The first one of its kind was constructed at the Massachusetts Institute of Technology by Dr. Vannevar Bush, but it has only four gears. In contrast to the ten on the one in Philadelphia, and the gears gauge its range.

The university plans to place the machine at the disposal of American industry.

### Japan's Trade With Canada

Is To Be Regulated By Committee Of Experts

The official trade council of Japan has appointed a committee to regulate trade with Canada. In this connection it was said last year Japan purchased from Canada \$15,400,000 in goods while Canada purchased Japanese merchandise valued at \$2,240,000.

The trade council, consisting of experts of the ministries of finance, foreign affairs and commerce, decided to apply a system of control over imports and also to introduce safeguarding measures against countries which impose severe restrictions against Japanese imports. These take the form of increased tariff or restrictions, even prohibition of imports.

2087

## BRITISH FOREIGN POLICY SKETCHED FOR VISITORS

London.—An account of their conferences and conversations with European statesmen was given to Prime Minister R. B. Bennett and other heads of the self-governing Dominions by Prime Minister Ramsay MacDonald and Sir John Simon, secretary of the foreign office, at an informal gathering in the commons. A discussion followed.

The meeting occupied an hour and a half after which a communique was issued. The communique said:

"The prime minister entertained at tea the prime ministers of Canada, Australia and South Africa. The prime minister of New Zealand was unable to be present as he had not arrived in England. Several colleagues of the prime ministers were also present.

"An opportunity was taken to have an informal discussion of the present international situation in the course of which Mr. MacDonald and Sir John Simon gave an account of recent conferences and conversations with European states. Among the British present besides Mr. MacDonald and Sir John Simon were Stanley Baldwin, lord president of the council; Neville Chamberlain, chancellor of the exchequer; J. H. Thomas, secretary for the Dominions; and Sir Philip Cunliffe-Lister, secretary for the colonies."

It is understood Sir John gave an account of the events of the last two months starting with conversations with the French government beginning in February, covering the German declaration of conscription, the Berlin and other visits, the Stresa conference and the meeting of the League council at Geneva. Mr. MacDonald also participated in the talks and the policy of the United Kingdom throughout these events was sketched.

It was gathered that the talk was entirely confined to international affairs and consisted very largely in the Dominions premiers asking and receiving information.

## For Polar Flight

Wilkins Looks For Pilots For Venturesome Trip

Toronto.—Sir Hubert Wilkins, explorer of the polar regions, was here interviewing air pilots with a view to finding a pair to accompany him and Lincoln Ellsworth on what may be the first non-stop 2,900 miles flight across Antarctica.

Only two pilots will travel with the expedition, which is slated to leave the United States early in October. Sir Hubert interviewed four flyers here, and will proceed to Winnipeg and talk to some more next week.

## French Army Storing Wheat

Purchases Absorbing Some Surplus And Helping Increase Price

Paris, France.—Minister of Agriculture Cazeaux indicated that the French army was storing wheat, when he reported to the cabinet that purchases by the quartermaster's department was absorbing some of France's wheat surplus and helping increase the price of wheat to 10 francs for 220.46 pounds. The French cabinet approved counter-proposals for the Franco-Russia treaty which are to be submitted to Soviet Russia for final negotiations.

## Not Closing Camps

Ontario Not Shutting Down Relief Camps At Sudbury

Toronto.—Ontario government relief camps near Sudbury and Sault Ste. Marie are not being closed, Hon. Peter Heenan, provincial minister of lands and forests, stated here.

He pointed out that a number of men, including settlers who would have an opportunity to cultivate their land, had been let out until the province learns from the federal government what contribution Ottawa is prepared to make toward works on trans-Canada highway project.

## Germany's Naval Plans

Hitler May Decide To Shroud Intentions In Mystery

Berlin.—Adolf Hitler was believed in competent quarters to be planning to see Germany's naval re-armament to keep him in the "driver's seat" in arms negotiations with other powers.

It was thus these quarters explained the continued official secrecy concerning the extent of the reich's plans for naval construction, and the reiterated official denials that submarines actually have been constructed.

Commentators here said the fuhrer may decide to shroud his naval plans in continued official secrecy and approach the scheduled Anglo-German naval conversations reluctantly.

Commenting on reports from abroad that the reich already had six submarines ready for manoeuvres, one foreign naval expert said: "It is impossible to hide a submarine along the coast—and what good would a hidden submarine be for such things as training?"

## Britain Not Worrying

Not Stirred Too Deeply By Germany's U-Boat Plan

London.—Great Britain does not intend to become stirred too deeply by Germany's building of U-boats, but will continue plans for the projected Anglo-German naval talks, it was authoritatively asserted here.

During the talks, which will take place probably after Chancellor Adolf Hitler outlines his foreign policy before the reichstag about May 15, Joachim von Ribbentrop, Hitler's personal arms emissary, will head Germany's special delegation, it was officially confirmed.

The cabinet, it was learned, will study these three methods proposed for dealing with this latest violation of the treaty of Versailles:

1. A protest to Berlin.
2. Intervention at Geneva.
3. Consultation with France and Italy, in pursuance of the agreements reached at the Stresa conference.

## Important Role

Prince Of Wales Makes Appeal For Support Of Jubilee Trust Fund

London.—The Prince of Wales will naturally assume an important role in the jubilee celebrations marking the 25-year reign of his father.

That was emphasized with the appearance of the official jubilee program of which the first page was devoted to an appeal from the prince signed in his signature "Edward P." for support of the "King George's Jubilee Trust."

The trust, for which some \$20,000,000 is sought, will be used for young Britain. To steady youth in its difficult days and strengthen its maturity."

## Gift For University

Toronto.—President H. J. Cody of University of Toronto announced that the board of governors has accepted "with gratitude" a gift of \$3,000 from Dr. W. B. Hendry and Mrs. Hendry for the purpose of establishing a scholarship in obstetrics and gynecology in memory of their late son, William John Hendry, who graduated as gold medalist in medicine in 1933.

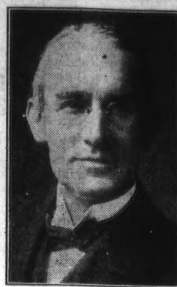

## To Release Many Prisoners

Montreal.—Between 300 and 400 men and women prisoners in jails in the province of Quebec will be released as a result of the general reduction of sentences granted in celebration of the silver jubilee of King George. It is estimated by officials of the Prisoners' Aid and Welfare Association here.

## Short Of Small Change

Mexico, D.F.—Although 500,000,000 pesos in new copper coins have been put in circulation by the Bank of Mexico, the shortage of small change for business transactions became more acute as silver money was surrendered to the bank in compliance with a government decree retiring it from circulation.

## AT KING'S JUBILEE

Rev. Sidney M. Berry, D.D., Moderator of the Free Church Council of England and Wales, who read the lessons at the service in St. Paul's Cathedral, London, commemorating the King's Jubilee.

## Victims Of Dust Storms

Twenty Persons Die In United States In Past Two Weeks

Springfield, Colo.—Red Cross officials estimated "at least 20" persons have died within the past two weeks in the United States "from bow" of diseases aggravated by the blowing silt.

Albert Evans, in charge of Red Cross dust storm headquarters at Liberal, Kas., said nine have died in Roca county, Colorado, five in the Oklahoma panhandle, and six in southwestern Kansas.

He emphasized the figure was "conservative."

A 10th "dust belt" death in less than two weeks and a score more of emergency hospital patients were reported as new clouds of silt shadowed parts of New Mexico, Texas, Colorado, Oklahoma and Kansas.

James Waite, five-year-old son of a farmer, died here of an illness which physicians said was aggravated by breathing dirt into his lungs.

## Stand On Trade Parley

Canada's Basis For Discussion With U.S. Has Been Decided

Ottawa.—Canada's stand on the reciprocal trade negotiations which the United States government announced some time ago would be initiated after hearings had been completed in Washington, was practically decided, according to the best information available here. The nature of Canada's basis for discussion has not been made public nor are any developments expected for a matter of weeks, it was learned.

Hon. W. D. Herridge, Canadian minister to Washington, was in Ottawa recently. He was in frequent consultation with the external affairs officials and government tariff experts. No official comment could be obtained on the question.

## Kidnapping Charge

Dutch Police Investigating Activities Of Nazi Government

The Hague.—Investigation of the kidnapping of a German laborer named Gutzelt from Dutch territory was pressed by police as public opinion connected the case with the deportation of a man named Buschke who, it is said, was spirited across the border into Germany coincident with the Gutzelt disappearance.

The expulsion of Major Witte was ordered about three weeks ago by Dutch authorities, according to a report submitted to the lower house by J. R. H. Van Schaik, minister of justice. He added the Nazi agent had reentered the border into Germany on April 22. He had been chief of the Nazi bureau in Amsterdam for over a year.

## Seeding Late In Alberta

Will Be General Soon If Weather Is Favorable

Calgary.—Wind and weather being favorable, seeding is expected to be general through southern Alberta, from Red Deer to the border, within a few days, the latest in the past 14 years.

The late start, however, has not worried farmers. Moisture conditions are good, and wheat will have a better than even break against weeds and grasshoppers.

There is expected, according to reports gathered by the Calgary Herald, to be a large increase in acreage seeded to coarse grain and feed crops, particularly oats.

In some southern districts seeding is from 10 to 20 per cent. under way.

From Red Deer north to the Peace River there is virtually no seeding done, but work on the land is underway at a few points, according to The Herald reports.

## Jumps From Train

Wisconsin Convict Meets Death In Attempt To Escape

Ridgetown, Ont.—Preferring death to trial on forgery charges, William O. Reeves, 64-year-old convict from Waukegan, Wis., leaped from a speeding Michigan and Central Railway train near here.

The body of the prisoner, being brought to Arlington, Mass. from Wisconsin state prison, was found mutilated on the railway tracks a few miles from here.

Reeves evaded his guard, Lieut. A. E. Ryan of Arlington, long enough to smash the small circular window in the train washroom and crawl through. The train was travelling at approximately 60 m.p.h. as it passed this point, 15 miles northeast of Chatham.

## REDUCTION OF INSURANCE RATES FOR H. B. ROUTE

Ottawa.—Reduction of 25 per cent. on the extra premium payable on vessels to be insured into the Hudson Bay route will be effective during the 1935 season under a report of the Imperial shipping committee on Hudson Bay marine insurance rates. The report was made public simultaneously in London and Ottawa.

The decrease in rates for "suspension of the warranty," (or for suspension of the guarantee the insured vessel will not engage in certain defined trades which the underwriters regard as involving extra risk), will apply to insured vessels, with or without a gyro compass.

The advantage of a lower rate given to a ship equipped with a gyro compass, considered by the committee to reduce greatly the risk, is to be maintained. The schedule of rates are involved depending on tonnage, values and other factors.

No change is proposed in the date of the opening of the season, the report states.

The opinion of masters is that the lighter in Hudson Strait are judiciously placed the committee finds.

After reviewing operations of the 1934 season, the committee commends highly the aids to navigation supplied by the government, the service rendered by the Canadian government steamship "N.B. McLean" and gives the following series of a summary of salient facts for last year:

- (A) That 15 commercial voyages have been made practically without casualty in a very difficult season;
- (B) That the aids to navigation supplied by the Canadian government have now reached a degree of efficiency they must be regarded as having very materially contributed to this result;
- (C) That several of the masters who captained the ships have now made the voyage for more than one season and have gained experience and confidence may also be regarded as having contributed to the result.

The report states the underwriters recognized that the aids to navigation, including especially the services of the two patrol vessels "N.B. McLean" and "Ocean Eagle" had rendered possible an immunity from serious casualty which was gratifying. "Had the bad season under review occurred in the first year after the opening of Churchill the present outlook for the route might have been very different."

## Drop Liquor Charges

Lack Of Territorial Jurisdiction Stated As Reason

Montreal.—Charges facing residents of the Maritime provinces of conspiracy to defraud the Dominion government of \$5,000,000 through liquor smuggling were dropped because of doubt of territorial jurisdiction and also because of expense, J. J. Penverne, K.C., crown prosecutor, declared as preliminary hearing of eight men on similar charges continued. The case is expected to close within a few days.

Those being tried are the four Bronnman brothers, Sam, Allan, Harry and Abe, Barney Aaron, F. S. Blair and James Crankshaw, all of Montreal, and William Yule, Halifax.

## Prohibit Importation

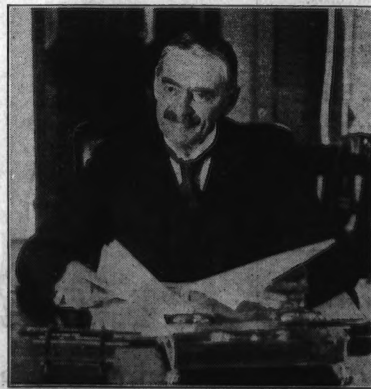

Two Books Of John Buchan Not Allowed Entry On Account Of Copyright

Ottawa.—The department of national revenue sent notification to customs collectors that importation of two books by John Buchan, Canada's governor-general-designate, has been prohibited.

The prohibition order was issued, the notification said, at the request of the publishers who have obtained copyrights under the Canadian act and do not wish copies of the works printed in other countries to be imported into Canada.

The books are "Prester John" and "Salute to Adventure."

## THE CHANCELLOR PREPARES HIS BUDGET

Here we see Mr. Neville Chamberlain, Britain's Chancellor of the Exchequer, preparing the nation's budget, which was so well received in the British House recently. A comfortable surplus was announced and taxation was cut to a very great extent.

## STONY PLAIN SUN.

Readers in Locals, 15c line.  
Legal and Municipal Notices, etc., 15c line first insertion; 10c line each subsequent insertion.

### Mother's Day.

Next Sunday, Mother's day May 12th, the evening service at the local United church will be taken by the pupils of the United Sunday School. Recitations, readings and a playlet "The Happiest Kingdom" will be given. All are welcome.

### A Correction.

In the report of the police court case printed in The Sun of April 25, in which Fred D Goebel, farmer, of the Spruce Grove district, was charged that he did "fraudulently take one hog by taking possession when same was found astray," there was an incorrect statement to the effect that Mr A H Shennan had to pay the costs of the court, which was \$12.50. Mr A H Shennan was offered a payment of \$25.00, which he accepted.

**PETER HENKEL, BUYING HOGS EVERY THURSDAY in Stony Plain.** Phone 53 25c. 100 lbs. less than Edmonton price, and Stony Plain weight.

Also Buys Cattle and Live Poultry.

## NEWSY NOTES FROM SPRUCE GROVE DIST.

Mr Joe D Miller, of Tomahawk, was a holiday visitor here.

Mr R C Johnson, Conservative candidate for the Legislature, is expected to open his campaign at the Grove in the near future.

Much to the surprise of everybody, Messrs C Fuhr and Hy Brox dropped off the Jasper Park train late on Friday night—they hadn't been expected back so soon. We understand Harry has a job up in the Rocky Mountains this summer, taking a census of the grizzlies.

### Election Officials' Pay Cut

Officials employed during the forthcoming provincial elections in June and who find it necessary to use autos in their official traveling, will find the traveling allowance cut to 14c per mile, from 20c. The sum of \$21,400 will be spent on enumeration. Enumeration will not start until after the writ has been issued. There will be 300,000 names on the voters list.

### "Slim Pickings."

Wetaakiwin Free Press: Yesterday we noticed a farmer marketing a beef hide in one of our butcher shops which netted him 30 cents. The farmer was cheerful over the transaction, and exchanged his coin for 30 cents worth of sausage.

## WILLIAM ABERHART.

(From The Instructor, Gardenvale, Que)

No man or woman can interest himself in welfare work without unconsciously developing within him a sincere sympathy with suffering humanity and a feeling that something might be done to establish greater equality of opportunity. It was therefore to be expected that, when William Aberhart began his Sunday-school-by-correspondence for rural dwellers, he would soon become an important factor in an up-lift movement. He is convinced that there is something wrong with money. He is not yet satisfied that the Douglas System of Social Credit offers a complete solution; but he urges everyone to study it. That is the policy, out of which something worth while will evolve. When there is a wrong to be righted, study it. Don't be dogmatic about a remedy until you have studied it. Mr Aberhart's Money Study Club Movement is gaining ground rapidly, as may be seen by the following in Maclean's Magazine for April, 1935:

"Fifty-four thousand residents signed a petition late in 1933 asking the Brownlee Government to investigate the principles prescribed by Mr Aberhart, and to determine and report if the Plan was applicable to Alberta. Then, again, 70,000 signed a 'straw ballot' last summer approving Social Credit. The import of these figures can be gained from the knowledge that 74,187 UFA votes gave the Government 40 out of 63 seats in the Provincial House in 1930. The total poll then was 188,219."

In February last the Alberta Government announced the appointment of Major Douglas as its adviser on financial reform. This move is fraught with great possibilities, providing every elector, not only in Alberta but thruout Canada, join with Mr Aberhart and his 160 or more Money Study Clubs.

## GOOD USED CARS

### SOLD WITH A GUARANTEE.

We have the Car for you—a Car your size, and at your price. Here are real values offered in these automobiles of various makes:

1929 Ford Coupe,	\$225
1929 Ford Truck,	\$275
1929 Chevrolet Truck,	\$300
1929 Graham-Paige Coupe,	\$250
1931 Willys Sedan,	\$350
1930 Marquette Sedan,	\$375
1930 Oakland Sedan,	\$425
1930 Graham-Paige Sedan,	\$400

All these Cars are Re-conditioned. Low Prices and Good Terms.

## Sommerfield & Mayer,

Agents for CHEVROLET and OLDSMOBILE CARS  
Agents for British American Oil Co. and all its Products.

Now is the time to bring in your Car and have it re-conditioned, ready for the Season's work.

**SERVICE GARAGE, Stony Plain.**

### Notes of Sports.

During the past week the local sports did not get away to the expected early start. The weatherman scored again.

Nevertheless, 1 game has been played in the Softball League and was witnessed by a large crowd of Sunday Scots. They were given a ball game and shown some real masterful twirling by that diamond-rink speedster, Sir A. Ducholche. His offerings were well handled by the opposing batters or given to the willing hands of "Willie" Miller. At any rate the noog birds came out on top; final score: Canaries 13, B Hawks 7.

Baseball has not, as yet, come into its own, but sad news has reached our ears—we have it on good authority that the one and only catcher Stony ever produced is leaving the game. We refer to that dashing gem of shut-out fame, Mr Ed Mayer. Whether it is old age, business depression or social night life that's the cause, Eddie will be missed by the few old faithful critics at the games.

Speaking about baseball, brings to mind there will be 6 teams entered for the local tournament July 1st. This is good news, as it shows we are getting ready for another big day. Last year, after an unpromising start, the celebration was renewed in its entirety; and here's hoping we see action soon and not leave everything till the last week. Anyway, those pushing the show should be given all possible support. If the committee calls on you, are you going to be a Good Sport and help out? Our motto: Everyone out for a Bigger and Better July the First!—HCO.

Following is the personnel of the teams of the Softball League:

**BENEDICTS:** J McCulla, R M Oatway, S Grant, D Moyer, R Zocher, E F Lewis, C Anderson, W Back, O Hoffman, P Miller, L Miller, and G Lory manager. (This team can still use a few good players, a coach, waterboy, and referee.)

**BLACK HAWKS:** W Roman, R Enders, Louie Miller, O Oppertshausser, L Enders, R Yancheck, F Mayer, J Holm, W Miller, E Enders, W Ulmer, O Dreiss manager.

**CANARIES:** A Ducholche, B Miller, G Miller, P Enders, E Meyer, W Foster, G Trapp, W Oppertshausser, A Willie, E Ulmer, W Miller manager.

**PELICANS:** E Dannhauser, E Larson, W Larson, Gannon Bros, Oatway Bros, Ken Smith, S Martin, H Trapp Manager.

## BARGAINS AT THE SUN BOOK SHOP.

### Exercise Books (Ink)

Prices range from 18c. for the best, to 3c.

### Scribblers (Pencil)

Prices from 2½c up.

### Waterman's Ink

In 2 oz., and pints & quarts. Also Fearless and Reliance.

### India Ink

Reeves's 4-oz. 19c.

### Regulation Note Book,

with Rings. Refills for same, and also Gummed Reinforcements.

## NOW IT'S COMPULSORY GRADING OF BUTTER.

The grading of Creamery butter for domestic consumption became compulsory in this province May 1st.

The terms to describe the grades as required by law must be First Grade, Second Grade, Third Grade, No Grade. The term used must give the correct description of the quality of the butter in accordance with the standards provided by law for different grades.

### Hansen's Corners.

The farmers are on the land, at last, and seeding will be in full swing within a few days.

A Social Credit meeting was held last week in our Community hall, which was fairly well attended.

The Hon. Chas. Stewart and Mr Geo. J. Bryan are billed to hold meetings in this district in the near future.

Mr Morris McDonald, Miss Marietta McDonald and Miss Carrahan, our school teacher, were visitors with Mr and Mrs Donald Mac Donald on Sunday.

A large number of local farmers are strong for Social Credit, and OCF policies.

The roads hereabouts are drying up fast.

Mrs M D Duncan, matron of Alternia hospital, on Vancouver Island, is visiting at present with her sister, Mrs Donald MacDonald.

With the prospects of a very short farming season before them, local farmers hope that the promise of that 30 dollar bonus comes true.

There is quite a dispute a-going on here as to who had the honor of being First on the Land. One fellow who was scratching his garden claims the honor, but his claim has been disallowed.

### Political Gossip.

In the week of May 13 W R Howson, Liberal Leader, will commence a tour of the Northern constituencies. In the coming campaign the Liberals, it is said, will have a candidate in each constituency.

Many changes are inevitable in the next Legislature. Among those who failed to secure re-nomination are Speaker Johnston, UFA member for Coronation; Rudolf Hennig, UFA member for Clover Bar; Fred J White, Labor leader for Calgary, is not offering himself for re-election; he will contest East Calgary in the Federal election.

Hon J Russell Love, Provincial Treasurer, has withdrawn from his old Constituency, Wainwright, and has accepted the UFA nomination for Sturgeon Riding.

At last accounts, former Premier Brownlee had not accepted a re-nomination in his old Constituency Ponoka.

**FOR SALE,** Quarter Section; 60 acres under cultivation; whole quarter fenced, fair buildings price \$2500; \$650 cash, balance in 8 yrs at 5 p.c. Apply Mr Almon, Carvel.

**MAN WANTED** for Rawleigh Route of 800 families. Write today. Rawleigh, Dept. WGR-96, SA, Winnipeg, Man., Canada.

**Wanted**—Small classified ads. bring big results. Try one.

### DRESS MAKING AND PLAIN SEWING.

Apply **MRS. WALES**, The Old John B Miller House, 3rd Street, Stony Plain.

## Here and There

With the warm weather and a fine season almost upon us, dates of opening of the summer hotels and resorts of the Canadian Pacific Railway will be welcome news to tourists. The Spring Lake opens, June 16; Quilnes Lake, June 16; Emerald Lake, June 16; and bungalow camps Whistler, Yoho, Radium Hot Springs and Moraine Lake, June 21; French River Bungalow Camp, June 15; Devil's Gap Bungalow Camp, June 21; Algonquin Hotel, St. Andrews, N.B. June 22; The Pines, Digby, June 27 and the Lakeside Inn, Yarmouth, June 28.

Portland, Oregon, famous annual Rose Festival will be held this year, June 4-8. Millions of rose blooms will be on display in the many floats of the grand floral parade and also in the 4th annual show of the Portland Rose Society.

Marking the Silver Jubilee celebrations of the coronation of King George V, to be held this year, the Canadian Pacific Railway has issued a strikingly handsome folder covering the main events of the jubilee from the Kings' drive to St. Paul's Cathedral on the 11th and ending with the Lord Mayor's Show on November 8.

A beautiful new menu card for the King's Jubilee Festival has been designed by the Canadian Pacific Railway to be used in all the company's hotels from coast to coast, on ships of the Atlantic and Pacific fleets and on world cruise ships. The front cover is done in gold with the Canadian Coat of Arms in color at the top and the Royal Pacific crest at the bottom. The back cover, also done in gold, shows a train in motion from the Chateau Frontenac at Quebec City and the Empress of Britain. A sample leaf below the Coat of Arms and a space on the back for autographs completes the menu card.

The world is invited to attend the annual Rose Festival to be held at Portland, Oregon, June 4, 5 and 6. This, one of the outstanding fests of the United States, will this year show many new and beautiful features, among which the 15th annual rose show of the Portland Rose Society will be not the least important. The winners will be embowered in roses at that time of year.

Over the period May 15-23 inclusive, the Canadian railways are offering special bargain fares at the rate of \$1.00 per mile, figuring approximately one cent a mile from various eastern cities to western Canada. Return limit is thirty days from the date of issue of ticket with stopovers within the limit of the ticket at Fort Arthur, Armstrong, and points west thereof.

Addressing an audience of more than a thousand representative business men at Toronto recently, R. W. Beatty, E.C., chairman and president of the Canadian Pacific Railway, stated that the Canadian Railway system was never an honest experiment in public ownership and that it was neither more nor less than a public utility. This problem, he said, constitutes Canada's most difficult problem and threatens national sovereignty.

Starting a tour of Canada which will include the principal centres of the Dominion, Lord Baden-Powell, Chief Scout, Lady Baden-Powell, chief of the Girl Guides, and their two daughters, landed at Vancouver from S.S. Princess Charlotte recently and are being given rousing welcomes in every center throughout the country.

## TOWN OF STONY PLAIN.

### Notice of Preparation of Assessment Roll.

NOTICE IS HEREBY GIVEN that the Assessment Roll of the Town of Stony Plain for the year 1935 has been prepared and is now open for inspection at the office of the Secretary-Treasurer from ten o'clock in the forenoon until four o'clock in the afternoon on every day which is not a public holiday, except Saturday, and on that day from ten o'clock in the forenoon until two o'clock in the afternoon; and that any person who desires to object to the entry of his name or that of any other person upon the said Roll or to the assessment of any property or to the assessed value placed upon any property, must within thirty days after the date of this Notice lodge a complaint in writing with the Secretary-Treasurer of the Town.

DATED this 3rd day of April, 1935.  
JAS. MALLOCH,  
Secretary-Treasurer.
